

Plate Heat Exchanger—Low-Cost Stainless Steel Frames

To meet demand we have developed a low-cost stainless steel frame for our popular UKE-1 & 2 models for use in sanitary applications or where corrosion resistance is required, for example where equipment is regularly washed down or installed outside.

This design of frame offers considerable cost savings compared to conventional stainless steel frame designs.

Types

- Single Section—Single Pass
- Single Section—Multi Pass
- Two Section—Single Pass
