

RADIATOR FIN STRAIGHTENER

Designed for straightening fins and removing debris from finned tube heat exchangers, vehicle radiators and air conditioning condensers.

UK Exchangers part no. UKE-RFS-01

Features

- * One tool, with 6 different combs.
- * 8, 9, 10, 12, 14 or 15 fins per inch
- * Use to straighten damaged fins or remove debris
- * Plastic material, suitable for delicate aluminium fins
- * Increase heat transfer efficiency

Applications

- * Finned tube coil heat exchangers
- * Vehicle radiators
- * Airconditioning Condensers / Evaporators
- * Space Heaters
- * Poultry Shed Heaters
